Bellam Guru Srikar

+91-8919557813 | srikarsri2004@gmail.com

PROFESSIONAL SUMMARY

Motivated and adaptable Computer Science (AI & DS) undergraduate with a solid foundation in Java, Python, React, SQL, HTML, and CSS. Familiar with basics of the software development principles and the Software Development Life Cycle (SDLC). Eager to build technical knowledge through hands-on projects and real-world challenges. Passionate about learning emerging technologies and contributing to the development of scalable, impactful solutions while continuously learning and growing as a **Full Stack Developer / Software Engineer** professional.

EDUCATION

B Tech in Computer Science & Engineering (AI & DS)
SIDDHARTH INSTITUTE OF ENGINEERING & TECHNOLOGY

MPC in Intermediate

SRI CHAITANYA JUNIOR COLLEGE

KESHAVA REDDY SCHOOL

May 2019-June 2021 90%

Nov 2021-May 2025

GPA:8.44/10

July 2018-May 2019 GPA: 9.5/10

TECHNICAL SKILLS

• Programming: Java, Python Programming, JavaScript

• Frameworks & Libraries: Django, React.js

Database Management: SQL, SQLite, MySQL (basics)

Web Technologies: HTML, CSSVersion Control: Git and GitHub

Methodologies: Agile, SDLC, CI/CD (basics)

· Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Time Management

INTERNSHIP

Java Intern - Strydo Technologies Pvt.Ltd

- · Applied core Java concepts (OOPs, Collections, Exception Handling, Multithreading) in real-time projects.
- Implemented CRUD operations with SQL database integration.
- Collaborated on features ensuring high availability in a simulated enterprise environment.

PROJECTS

Deepfake Video Detection using CNN, LSTM & Attention Mechanism

- Developed a deep learning model using CNNs, LSTMs, and attention mechanisms for robust video forgery detection.
- Achieved improved accuracy compared to traditional detection methods.

Mini Project on Grocery Billing System using Django Framework.

- A **Grocery Billing System** using **Django** with features like product catalog, category-wise browsing, dynamic cart, and real-time billing.
- Integrated frontend and backend with testable CRUD modules, showcasing end-to-end development skills.
- Used **Django Admin** for efficient management of inventory, categories, and user orders.

CERTIFICATIONS & ACHIVEMENTS

- Python Programming, MotionCut
- Visual Effects (VFX), SFX Animation Academy
- The Joy of Computing Using Python, NPTEL Online Certification
- Management-Becoming an Effective Leader, DOANEX-EDX

ADDITIONAL INFORMATION

- Fast learner, committed to continuous improvement.
- Experience in paper presentations and technical events.
- Open to relocation and flexible in job roles across Software / IT domains.
